

Agenda Item No. 5

2021 AWBA Storage Facility Inventory Report

**AWBA Quarterly Meeting
September 15, 2021**

**Simone Kjolsrud
Technical Administrator**

Purpose of AWBA Storage Facility Inventory Report

- **AWBA Facility Inventory Report is a statutory requirement intended to determine whether sufficient storage facilities exist to meet the AWBA's water storage needs for the following ten years (A.R.S. §45-2452(D))**
- **Required to update the Inventory Report at least once every five years**
- **Storage and Interstate Release Agreement (SIRA) requires identification of recharge facilities in the Inventory prior to the utilizing those facilities for interstate water storage**
- **Limitations on both water availability and funding will likely reduce the AWBA's needed storage capacity over the next ten years**

AWBA Storage Facilities - Total Capacity

AWBA Storage Facilities - Total Capacity (Active Permits)
