May 21, 2015	Finance, Audit and Power Committee recommended that the Board adopt a resolution determining that all of the tax levied for Water Storage in tax year 2015/2016 was required for CAP repayment or annual operations, maintenance and replacement costs, including CAWCD costs for AWBA M&I firming and be deposited in a designated CAWCD account with the Arizona State Treasurer

March 6, 2014	Board approved Amendment No. 1 to the IGA among CAWCD, AWBA and ADWR to Address the AWBA's Use of CAWCD's 4-cent Tax Revenues to Purchase Long-term Storage Credits

ISSUE SUMMARY/DESCRIPTION:

Historically, the Board has levied the Water Storage Tax at the statutory maximum of 4 cents per \$100 of assessed valuation. At the maximum rate, the amounts collected in Pima and Pinal counties cannot satisfy all of the M&I firming needs for those counties and are completely consumed. However, since CAWCD is only allowed to assess a single rate for all three counties, a substantial balance has built up from collections in Maricopa County that are in excess of what has been needed for M&I firming in that county.

Since 2003, CAWCD has reserved Water Storage Tax proceeds for OM&R in order to protect the funds in its own accounts. For several years (2003-2008), those funds were designated for OM&R related to costs of M&I firming by the Arizona Water Banking Authority (AWBA). In 2009, the designation was for OM&R related to underground storage. In order to provide Board with additional flexibility, in 2010 and 2011 the designation was simply for OM&R, and in 2012 and 2013 the designation was broadened to include OM&R or Repayment.

In early 2014, in conjunction with a bill introduced in the Arizona Legislature to allow the AWBA to purchase long-term storage credits (that subsequently passed), the Board approved an amendment to the IGA among CAWCD, AWBA and ADWR that governs the way in which 4-cent taxes can be used to help pay for such purchases. Under this amendment, the CAWCD Board will continue to establish the Water Storage Tax rate and use each June under the existing statutory. Later in the year, AWBA may make a request for some amount of the Water Storage tax levied for the current tax year for the purpose of purchasing long-term storage credits.

The Finance, Audit & Power Committee recommends that the Water Storage tax rate be kept at the statutory maximum of 4 cents for the 2016/2017 tax year, and the proceeds designated for OM&R and Repayment as was done last year. The proceeds of the tax should be deposited into the CAP Water Storage Reserve, where they will be available for use by the AWBA for M&I Firming and, under the terms of the amended IGA, available for the purchase of long-term storage credits. In the event that there is some future OM&R or Repayment need for any remaining Water Storage tax collected during the 2016/2017 tax year, a separate determination by the CAWCD Board will be required.

SUGGESTED MOTION:

I move that the Board of Directors adopt a resolution determining that all of the tax levied for Water Storage in tax year 2016/2017 is required for CAP repayment or annual operations, maintenance and replacement costs, including CAWCD costs for AWBA M&I firming and be deposited in a designated CAWCD account with the Arizona State Treasurer.
